5 KI

Made of recyclable, renewable materials, Genius full-height moveable walls offer flexibility to accommodate frequent and quick relocation without loss of materials, or modification to panels or to adjoining structures, such as ceilings, fixed walls, and floors. *Circle 106*

6 Trendway

Part of the first product launch as a result of Trendway's joint venture agreement with Interstuhl, InterTrend Seating, the Liv collection includes task and guest seating at an affordable price point. *Circle 107*

7 Chajo

The new Otto Collection from Chajo is an ottoman-inspired line of distinctive, multifunctional pieces. With its fossilized limestone top and bison-covered tapered sides, it doubles as a table and entertaining seat. *Circle 108*

8 Victor Innovatex

Eco Intelligent™ Polyester, made by Victor Innovatex for the contract market, is the company's first environmentally sustainable synthetic textile. It can be safely recycled perpetually. Used for seating and wall panels, Eco Intelligent Polyester is available in any jacquard pattern, weave, and color, and it performs as well as conventional polyester. *Circle 109*
