

# *the* Crafts Report

## ■ Chanin Cook and Jonathan Edie, Napa, California

Our mission is to create functional pieces of art that inspire both conversation and everyday use. We are drawn to clean forms that command attention by virtue of their subtle elegance and grace.

Each of our furnishings has a unique personality and we build with an equal emphasis on design, materials and craftsmanship. Our work showcases the natural characteristics of our materials, including fossilized limestone, petrified wood, ammonites (fossil shells of an extinct order), textured metals, hard woods, and select textiles.

Shown in residential and corporate collections in the United States and abroad, our work ranges from pedestals to modular cocktail table systems to conference tables and chairs. We welcome custom work and enjoy creating pieces to meet clients' individual needs.
