ART YOU CAN USE

If you want inspiring beauty, you need only view Palm Desert's surrounding mountains and the shadows that cross them from dawn until dusk. But if you seek a more practical aesthetic, A Gallery Fine Art on El Paseo delivers. A new line by Chajo Fine Art Furnishings of Napa — titled Cosmo — combines wood, steel, and stone with inlaid fossils or petrified wood. The result is functional furniture in a range of artistic and architectural styles.

The conversation-piece furniture's organic yet contemporary feel blends seamlessly with a variety of interior motifs. "The clean lines and unique natural

elements are a nice fit for the desert," says gallery owner Lisa Dempston. "It's just so warm; it really complements desert design."

A Gallery represents Chajo exclusively in Southern California.
